FINISHES

As noted in the catalog, you may order any of our finishes on any model. Most models are available with dual finishes (two-tone) at no additional charge. Please refer to the website www.superiorfurnitureco.com for a complete guide to finish stain and paint samples.

Antiquing levels range from None to Level 3. Detailed photos of the various levels of antiquing or distressing appear on our website at www.superiorfurnitureco.com. The levels of antiquing and the corresponding charges are as follows:

- 0 None
- 1 Moderate Antiquing: Moderate distressing with rub through. No charge.
- 2 Heavy Antiquing: Heavy distressing with heavier rub through with approximately 25% more distressing than Moderate. 5% additional charge.
- 3 Weathered Distressing: Highest level of distressing creating an aged, “worn” look and feel. 10% additional charge.

To reduce errors in processing your order, we require a specific product numbering code in specifying finishes for each order. Please specify both top and base finish codes, even if the finishes and antiquing are identical.

This can be illustrated best with an example. To order the 2569 Rectangular Cocktail Table with Harvest top, French White base, both with Moderate Antiquing, the proper numbering would be: 2569-10-64-1-1. Please follow the numbering code in the specific order listed below.

Finish Code		Antiquing Level	
Top or Seat	Base or Frame	Top or Seat	Base or Frame
10	- 64	- 1	- 1

By specifying finish and antiquing codes according to this procedure in the order listed above, we will reduce questions to you and assure that your Superior furniture will be ordered correctly. Note a 5% upcharge will apply for any variations from standard finishing processes.
